Re: Docket # 98N-1265

I am sending this letter to register my concern & disapproval of the Memorandum of Understanding as published by the FDA on Jan 21, 1999. I am a consumer of healthcare services, & of compounded specific medication.

As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or travel.
The MOU needs to be amended. C 2297

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts physicians & patients from obtaining healthcare products from their provider. J
98N-1265

choice. It infringe on the rights of compounding pharmacists to serve the public's specific medical needs.

Please amend the MOU.

I have been taking a compounded medication for 9 years. I am allergic to standard medications. By taking a compounded medication, tailored to my specific medical needs, I am not faced with having to have surgery if I cannot continue to receive my medicine.

I appreciate your help in allowing me to continue to receive my appropriate medication.

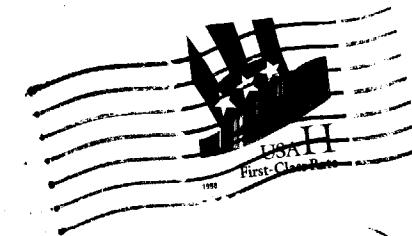

Sincerely yours,

Ellen Johns R.N.

Resident of Florida
